

Vendor Information

The Department is maintaining a list of tamper resistant prescription pad/paper vendors solely as a reference for Colorado Medicaid prescribers.

It is advisable that Colorado Medicaid prescribers become familiar with the specific features that are required within Colorado prior to ordering any product.

Vendors desiring to be included on the list must certify in writing to the Department that their prescription pads comply with the federal tamper resistant pad/paper requirements. The list of vendors will be updated as required data is provided to the Department. Any vendor wishing to be included on the list should provide a certification letter and contact information to Tom Leahey at Tom.Leahey@state.co.us

NOTE: The following list is not to be considered an exhaustive list of vendors nor an endorsement of any particular product or vendor. Also, the Department accepts no responsibility for claims or statements made by the vendors nor for the quality of their products. This list is available for informational purposes only.
